Presidents Report

Due to communications problems I was not able to contact our President for a story for this edition but I am sure this will change when the first edition for 2008 goes to print.

I am sure that Selwyn would like to join me in wishing all club members and their families a Merry Christmas and a Prosperous New Year.

I hope that you all find a large box under the Christmas tree and this should be evident in the first couple of months next year when these new models are test flown at the field.

Once you have become an aeromodeler presents that contain Sox & Jox are not appropriate

I have heard on the "Grape Vine" that those members who recently traveled to the luncheon at the Capel winery had an enjoyable time.

So much for "Global Warming", the weather conditions on Sunday morning were far from favorable for flying with rain and a cold winds lashing the field with only

three keen flyer braving the condition to attend.

Despite sitting for some time waiting for a break in the weather all three vacated the field with planes still in the warm comfort of their vehicles.

Most people engage in activities that are tension relieving rather than goal achieving, I find building to be goal achieving but test flying the finished product is certainly not tension relieving.

Self discipline is the ability to make yourself do what you should do, when you should do it, whether you feel like it or not.

From the Editor:

Welcome to this my first edition of the Propwash, the news items may be a bit light on for the end of the year edition, however this gives me room for improvement for future editions.

I will attempt to produce a news letter by-monthly, keep in mind this is your newsletter and will only be interesting if you the members contribute. Please forward any interesting articles or photos to me for inclusions.

Love is in the air:

One night , after the couple had retired for the night, the woman became aware that her husband was touching her in a most unusual manner. He started by running his hand across her shoulders and the small of her back. He ran his hand over her breasts, touching them very lightly. Then, he proceeded to run his hand gently down her side, sliding his hand over her stomach, and then down the other side to a point below her waist. He continued on, gently feeling her hips, first one side and then the other. His hand ran further down the outside of her thighs. His gentle probing then started up the inside of her left thigh, stopped and the returned to do the same to her right thigh.

By this time the woman was becoming aroused and she squirmed a little to better position herself. The man stopped abruptly and rolled over to his side of the bed.

“ Why are you stopping darling?” she whispered.

He whispered back, “ I found the remote control”

Celebrations:

There will be a Christmas BBQ conducted at the field at lunch time on Sunday 23rd December

Fred and Mary got married but couldn't afford a honeymoon so they go back to Fred's Mom and Dad's for their first night together.

In the morning, Johnny, Fred's little brother, gets up and has his breakfast.

As he is going out of the door to go to school, he asks his mom if Fred and Mary are up yet.

She replies, "No".

Johnny asks, "Do you know what I think?"

His mom replies, "I don't want to hear what you think! Just go to school."

Johnny comes home for lunch and asks his mom, "Are Fred and Mary up yet?"

She replies, "No."

Johnny says, "Do you know what I think?"

His mom replies, "Never mind what you think! Eat your lunch and go back to school."

After school, Johnny comes home and asks again, "Are Fred and Mary up yet?"

His mom says, "No."

He asks, "Do you know what I think?"

His mom, getting aggravated replies, "Ok then, now tell me what you think"

He says: "Last night Fred came to my room for the Vaseline and I think I gave him my airplane glue."

Boys with BIG toys:

Clint made a recent visit to KAMS field to enjoy a bit of real flying.

Two young boys walked into a pharmacy one day, picked out a box of tampons and proceeded to the checkout counter. The man at the counter asked the older boy, 'Son, how old are you?' 'Eight,' the boy replied.

The man continued, 'Do you know what these are used for?'

The boy replied, 'Not exactly, but they aren't for me. They're for him. He's my brother. He's four, we saw on TV that if you use these you would be able to swim and ride a bike.'

Right now, he can't do either one.
